

Municipal Development Plan Update

The Town of Calmar has engaged ISL Engineering and Land Services Ltd. (ISL) to update the existing Municipal Development Plan (MDP). The updated MDP will provide strategic direction to guide future growth and development within the Town. The MDP forecasts population growth, directs future land use, and anticipates future transportation and servicing needs. It also serves as an important decision-making tool for Council, administration, landowners, residents and developers.

Throughout the process of preparing the MDP, the public will be provided with multiple opportunities to share their input on MDP policies and development concepts. The first round of community engagement is anticipated to begin this July.

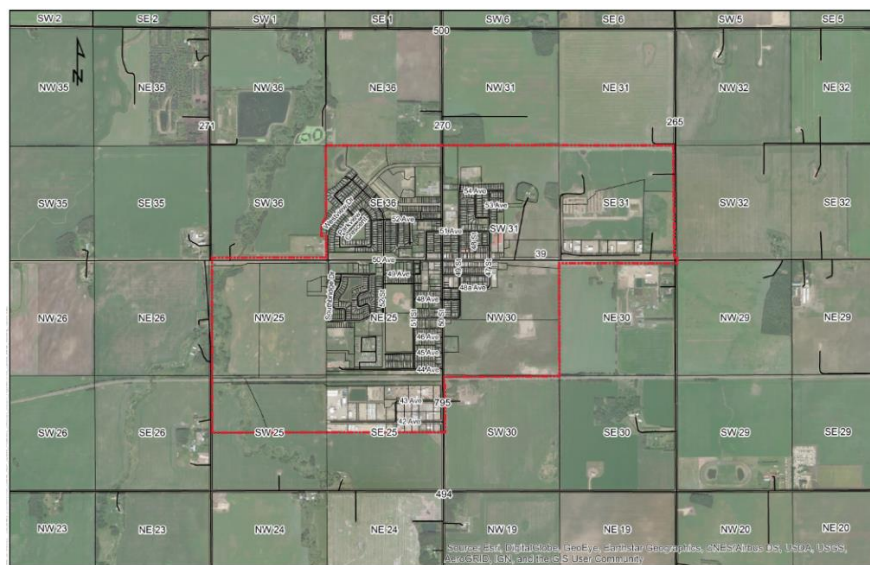

Capture the Community! Municipal Development Plan Photography Contest

As part of this project, the Town is encouraging all photographers to submit your favourite captures of the Town and Town events for the potential of having your photo selected to be featured in the MDP. Submit your photo **here** by August 31, 2018. You are allowed to submit as many photos as you like, but submit one photo/entry.

For more information about the project or photography contest, contact:
